

SOC-WIN11 COMMUNICATIONS RISK REGISTER											
Risk ID	Risk Description	Impact Description	Impact	Likelihood	Risk Score (Impact x Likelihood)	Treatment Plan	Risk Owner	Target Date	Residual Risk	Review Date	Status
R-001	Field engineer laptop/mobile devices are lost or stolen	Company and client data exposure which can disrupt operations	4	3	12	Enable full-disk encryption, asset tracking and remote wipe capability	SOC Manager	31/08/2026	Medium	30/09/2026	Open
R-002	Traffic interception caused by staff working from public or insecure networks	Company and client sensitive data exposure	4	2	8	Add VPN, endpoint enforcement and remote working guidance	SOC Manager	31/08/2026	Medium	30/09/2026	Open
R-003	Successful phishing attack	Unauthorised access to company systems from remote locations	5	3	15	Phishing awareness training and enforce MFA for all critical services	SOC Manager	31/08/2026	High	30/09/2026	Open

Before Mitigation (Inherent Risk)	
Field Devices Lost / Stolen:	<i>Impact: 4 (Major), Likelihood: 3 (Possible) → Score: 12 (Medium).</i>
Traffic Interception:	<i>Impact: 4 (Major), Likelihood: 2 (Unlikely) → Score: 8 (Medium).</i>
Phishing Attacks:	<i>Impact: 5 (Severe), Likelihood: 3 (Possible) → Score: 15 (High).</i>
